

Library Workshop

Researching with NVivo: From Coding to Meaning Making

19 JAN 2017 (THU)
2:30 p.m. - 4:00 p.m.

Do you want to conduct qualitative research using **NVIVO** ?

This workshop will explore grounded theory through using NVivo. In this hands-on workshop, participants will learn how to conduct text analysis through coding with free nodes, and build themes through linking free nodes to tree nodes using NVivo.

CUHK staff and postgraduate students are all welcome to join.

INSTRUCTOR

Dr Paula Hodgson
Professional Consultant

Centre for Learning Enhancement And Research (CLEAR)

INTENDED PARTICIPANTS

Staff &
postgraduate students

VENUE

Digital Scholarship Lab
G/F, University Library

LANGUAGE | English

REMARKS | Interested participants will need to bring your own notebook computer with NVivo 10 (or above) installed to the workshop. Participants are welcome to bring along your own qualitative research project data.
